

Chrome Extension Software Requirements (Rocket Planner)

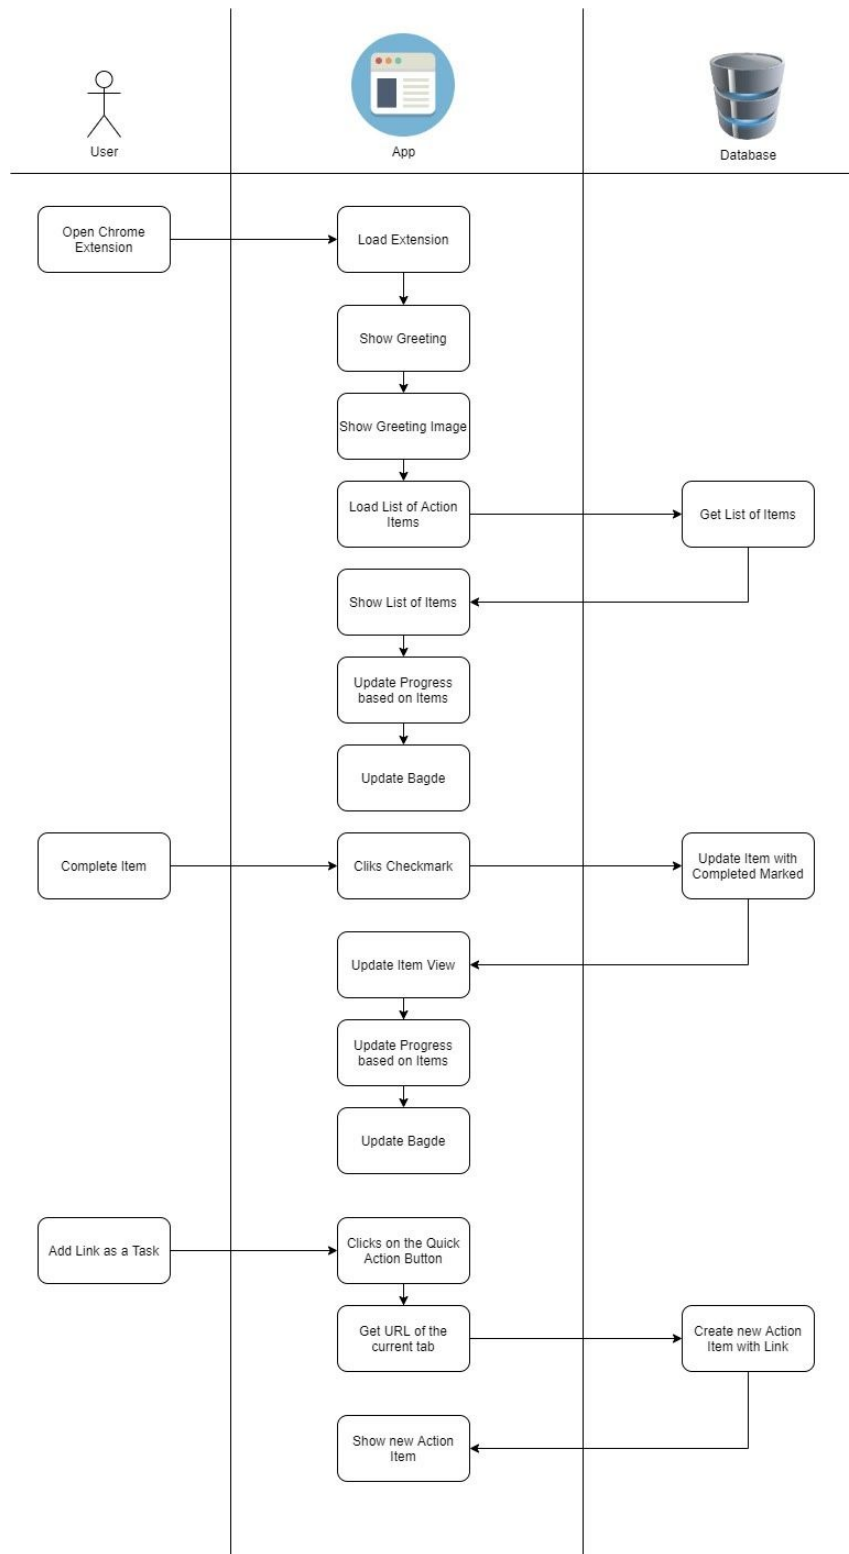

Goals

- Create the best and easiest user experience for the user to play they day
- Add the ability for a user to see the progress of their tasks for the day
- Have the user focus on a plan of action vs tasks for the day

User Stories

- As a user, I want to see a list of all my plan of action items so that I can view the plan of action for the day
- As a user, I want to add an action item so that I can continue adding to my plan of action for the day
- As a user, I want to delete an action item so that I can remove any unnecessary item
- As a user, I want to be able to mark my items completed so that I can view action items that are completed.
- As a user, I want to see percentage progress so that I can see my daily progress for the day
- As a user, I want to quickly add frequently done action items so that i can save time
- As a user, I want to make a website a task so that I can come back and later read that website.
- As a user, I want to be greeted so that I can have a welcoming user experience as I open up the app
- As a user, I want to edit my name in the greeting so that I can be greeted with the correct name

Flow Diagram(Swimlane)

Business Requirements

- Allow a user to see action items for the day
- Allow a user to add new action items for the day
- Allow a user to bookmark any site as a task
- Allow a user to delete an action item
- Allow a user to mark a action item completed
- Show percentage progress of item for the day
- Do not show completed items from the previous day
- Greet the user with words
 - Good morning, Good Afternoon, Good Evening, Good Night
- Display an image representing the time of the day
 - Morning, Afternoon, Evening, Night
- Show the users name in the greeting as the following
 - Good Morning, User
- Allow a user to be able to easily edit their name
- Give a user 3 quick action items to use:
 - Gym
 - Link site later
 - Meditate
- Provide a nice user experience through clean animations on action items
- Remove the need for any login

Technical Requirements

- Use Chrome Storage as a database to save data
 - <https://developers.chrome.com/extensions/storage>
